DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 12 and 13 are rejected under 35 U.S.C. 102(e) as being anticipated by US 2003/0099194 (hereinafter referred as “Lee”).

Regarding claims 12 and 13, Lee discloses a machine-readable medium having stored thereon a data structure comprising a plurality of entries, each entry including

- b) an outstanding packet in switch fabric indicator (see Fig. 3, paragraphs [0048]);
- c) a path identifier (see Fig. 3, paragraphs [0048], [0049]).

3. Claims 29-32 are rejected under 35 U.S.C. 102(e) as being anticipated by US 2003/0123468 (hereinafter referred as “Nong”).

Regarding claims 29-32, Nong discloses for use in a switch, an input module comprising:

- a) a plurality of virtual output queues for accepting cells (see Figs. 2 and 3, abstract, and paragraphs [0052], [0053]);
- b) a plurality of virtual path queues for accepting head-of-line cells from the plurality of virtual output queues (see Figs. 2 and 3, abstract, and paragraphs [0052], [0053]).

Allowable Subject Matter

4. Claim 1-11 and 15-28 are allowed.
5. Claim 14 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
